

## 1. Who we are? What are we doing?

The Association Invingem Autismul was founded in 2009, with the aim of improving the lives of people affected by Autism Spectrum Disorders (ASD).

Since then, we have become one of the leading organizations in this field in Romania, with a well-known activity in the recovery and social integration of children and young people with autism.

The association is accredited as a provider of social services under the law, and since August 2020 the service offered has been licensed.

## 2. What is autism?

Autism spectrum disorder (ASD) is a complex developmental condition that involves persistent challenges in social interaction, speech and nonverbal communication, and restricted/repetitive behaviors. The effects of ASD and the severity of symptoms are different in each person.

ASD is usually first diagnosed in childhood, but some children with autism develop normally until toddlerhood when they stop acquiring or lose previously gained skills.

In 2019, one in 54 children is estimated to have autism. Autism is a lifelong condition.

### 3. Services:

- Applied Behavior Analysis (ABA)
- Social groups
- Alternative therapies: painting classes, swimming and going out in nature
- Information services and counseling for parents
